SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Abstract Condense the abstract into 250 words, to conforming to most paper-search mechanisms, such as PUBMED. Key words The key words are inadequate. Search the key works in the National Library of Medicine - Medical Subject Headings http://www.nlm.nih.gov/mesh/meshhome.html Line 15 Urinary schistosomiasis is caused by Line 17 and 20 [4-8] and [11-15]	We removed a few words in the abstract section. It was condensed to 248 words. We searched the new key words using the National Library of Medicine - Medical Subject Headings. The key words we have chosen from those we obtained appear in the correct version of the manuscript. New key words are: <i>schistosoma haematobium</i>, leukocytes, prevalence, child, Cameroon. We corrected the lines 15, 17 and 20.
<u>Minor</u> REVISION comments	It is a well-written article that deserves publication.	
<u>Optional/General</u> comments
