SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Very comprehensive and detailed work. Check your referencing. I noticed that you used Vancouver method (that is the use of numbers) in the text but your Referencing in the reference page is in alphabetical order which is Harvard referencing style. If you are using the Vancouver referencing style your reference list should not be in alphabetical order rather will correspond with the numbering.	The errors on referencing have been corrected as the Vancouver referencing style is used on the referencing page and is highlighted with yellow text. (Line 394 -477)
Minor REVISION comments		
Optional/General comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
