**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                 | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | Authors might add in the text of the paper the tables with the most important results of clinical trials. To easily understand the main considerations of the review, comprehensive figures are desirable. Section "Future direction of investigations" is desirable too. | Please the attached file below is the edited version of the paper                                                                                                                           |
| <b><u>Optional/General</u></b> comments    | The reviewer is depicted an actual topic, it is well written and good read.                                                                                                                                                                                               |                                                                                                                                                                                             |
