SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Thank you for valuable research. Please, do the following modifications: 1. Involve the study setting in your research title. 2. Add study design in abstract and context "methodology" 3. Clarify the method sampling. 4. Clarify the problem statement.	Thank you very much for your valuable comments 1. If you please authors want to mention study setting only in materials and subjects 2. Prospective cross sectional study was conducted to 3. Paper edited to Clarify the method sampling, Clarify the problem statement Finally, a total of 120 subjects, 60 CAD patients and 60 CAD negative, controls were to be selected matched in age and sex with patients.
<u>Minor</u> REVISION comments	5. Give recommendations for further studies. 6. Review for grammatical errors.	Conclusion H. pylori infection increases the risk of CAD, and should be considered as a risk factor for CAD, also there was significant association between <i>H. pylori</i> infection and increased triglyceride hsCRP levels and decreased HDL-c. Further, prospective large trial is needed to confirm our finding.
<u>Optional/General</u> comments	7. Add a list of abbreviations and acknowledgment before References
