SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	(1) Authors are advised to get the manuscript to be re-edited either through native English editor or editorial services of the journal as such, in view of enabling the manuscript with 'Flawless English'. If there is any ethical issue please clarify	The text of the manuscript was re-checked through the grammar and editing sites available at: http://www.reverso.net/spell-checker/english-spelling-grammar/ Therefore, the grammar is re-checked as requested.
Minor REVISION comments	NOT APPLICABLE	
Optional/General comments	(1) This study appears to be interesting. But it would be more fascinating if authors could incorporate <i>in vivo</i> and/or <i>in vitro</i> experiments to support <i>in silico</i> study.. But this comment/suggestion may be conditional not mandatory.	The study presented in this work is strictly a data mining and properties analysis study. Actually, the references cited in the study lead to the pertinent investigations of <i>in vitro</i> testing. The readers can easily locate and determine if that is important to the reader, only.
