SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	the study is important from the point of view of Plasmodium and HIV infections have high relevance in the region studied. However the results do not lead to a more consistent analysis of the epidemiological situation. I suggest that present the most interesting form of data relating the two infections	I agree with the reviewers comments. I have also re-phrased some parts of the discussion to bring out the epidemiological situation for HIV and Malaria in the study population. I hope this will meet the reviewer's recommendation.
Minor REVISION comments		
Optional/General comments
