Manuscript Number:	Ms_IJTDH_27040
Title of the Manuscript:	Parasitological Assessment and Public Health Implications of Water used for Domestic Purposes in Ebonyi Local Government Area of Ebonyi State, Nigeria.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There is no evidence that permission was duly sought and obtained. Was it given orally, or was it documented in writing? Provide proof, e.g. cite a letter or certificate to that effect. Authors have taken the images from the Internet. Under Results Line 91, it is stated ...and Taenia spp. (Plates 1-6). The source of these images is not given. Moreover, below the 6 images, lies the title concerning the images. The source is not given here either. I believe that there is a fee that is charged by the owner by using such images by a third party.	The study was reviewed and approved by the Research and Ethics Committee of the Ebonyi State University, Abakaliki, Nigeria. Permission was orally sought and obtained from the Head, Public Health Department of Ebonyi Local Government Area of Ebonyi State, Nigeria. We hereby withdraw the images as we could not provide ours. We can't create or falsify an image just to make sure the paper is published. The mistake is already made and we cannot go back to our samples. We only realized the importance of the images at the concluding part of this study. But assured it is an original research duly carried out by the authors.
