SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The discussion needs to be supported with relevant literatures. In discussion, the author needs to compare and contrast his findings with that of similar or related studies. This has not been done. Also in the discussion, lines 316-385 should be supported with relevant literatures. Possible biases (e.g recall bias) were not stated as well as measures used in protectecting such biases	The issue of recall is irrelevant given that enrolees are continuously accessing the health care services, even as at present.
Minor REVISION comments		
Optional/General comments	This is a fairly good study
