PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors need to make some adjustments before acceptance. *In abstract, words that were joined together should be separated. Also, 'bB' written after hepatitis B in first line of manuscripts should be corrected appropriately. The Manuscript: In the results, the authors should: * Quote absolute figures first before indicating the percentage. That should be corrected throughout the text. ** Also, on WBC counts, authors should just state, "WBC counts were normal in (absolute figure first, then the percentage). Leukopenia was detected in (quote abs. figure first and then the percentage) while leukocytosis was detected in (quote abs. figure, then the percentage). *** Words that were also joined together in the manuscript should be separated. **** Correct the first Figure by writing 'female' instead of femnle'. Overall comments: Major parts of the manuscript has been corrected.	*Done *Done(in the result as evaluator's directing) **Done ***Done ****Done Thank you
