SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Correct to anthropophaga were it appears in the abstract, correct to afro-tropical in the abstract, Conclusion in abstract: Remove spectacular. Conclusion in discussion: correct indeigiously. It would have been good to know if suspected flies that are implicated in this condition were seen in high density in areas these cases were reported	Dear Reviewer, Thank you very much for your valuable comments and suggested corrections All denoted typo errors were corrected as suggested by the reviewer, thank you Agree with the reviewer regarding the reporting of seeing the suspected flies in areas where suspected patients came from. In fact, at the time of the study we depended on the patients or their relatives to confirm seeing such flies around, however some of them confirmed the seeing of the flies, while others did not and at that time we were not able to confirm it by ourselves. Currently we are conducting surveillance in the Makkah region to study the epidemiology of the suspected flies in the region.
<u>Minor</u> REVISION comments	Good finding. Please read through the article carefully and correct all grammatical and spelling errors	All grammatical or spelling errors were corrected in the text as suggested (yellow highlighted), Thank you
<u>Optional/General</u> comments
