Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear sir, Thank you once again for being contacted. I must confess that I've read the manuscript once more and I could feel that it's much better now. However I would like to insist that the period of study should be mentioned; the study area should be classified regarding to its endemicity and finally how the symptomatic students were dealt is my concern as a physician.
