SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	A well written manuscript. But many similar studies have been performed previously. Role of FNAC in diagnosing tuberculous lymphadenitis is well established. This retrospective study lacks the statistical analysis to find out false negative and false positive cases. Also there is no clinical correlation of cases.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
