<u>Compulsory</u> REVISION comments	Original Research Article PATTERN AND OUTCOME OF HIGHER ORDER CAESAREAN SECTION IN A TERTIARY HEALTH INSTITUTION IN NIGERIA Being a retrospective study lose the statistical power for the use as evidence medicine tool, even so this paper show us a very good picture of what is happening in the developing countries, with lack of resources, (social, economics, a better developed degree in all fields) The paucity of a suitable prenatal care, pre-conception advice, poor economics resources and the three delays is the mayor cause of high maternal mortality and morbidity, and high perinatal mortality too. The article achieve their objective Will be with better evidence if they added some
