SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<u>Methodology section:</u> kindly indicate how the respondent consent was sought before inclusion in the study. <u>Results section:</u> - Lines 147 to 150 indicate 125 respondents included in the study not 300 as shown in tables. The authors should kindly specify the true sample size since none of the guardians/parents had more than one child. - The authors of the manuscript should include percentages after sample sizes in tables 1,2,and 3 as they intend to do. Ethical Issues: Indicate if each respondent gave its consent for the study.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The study is interesting since implementation of WHO guidelines remain a cornerstone to overcome malaria in endemic countries
