

CONSENT AGREEMENT FREE AND CLEAR

I declare, through this term, I agreed to participate in field research related to the research titled Anemia prevalence and correlation with parasite infections in children Riparian developed Amazon (o) by Erica dos Santos Sarges. I was informed (a), yet, that research is guided by Prof. Dr. CAROLINA HEITMANN MARES AZEVEDO RIBEIRO, whom I can contact at any time it deems necessary through telephone No. +5591-983363669 or email chribeiro@ufpa.br. I affirm that I took part on my own, without receiving any financial incentive or have any burden and with the sole purpose of working for the success of research. I was informed (a) the strictly academic goals of the study, which in general terms is to determine the prevalence of anemia, and correlate them with intestinal parasites in a population of Amazonian riverside children. I also made clear (a) that the information of use to me offered are subject to ethical standards for research involving human beings, the National Research Ethics Commission (CONEP) of the National Health Council, the Ministry of Health. My collaboration will be done anonymously, through collection and analysis of my blood and delivery of my stool. Access to and analysis of the collected data will be only by researchers and her advisor. I was also informed (a) that I can draw from the study at any time without prejudice to my subscriptions or incurring any sanctions or constraints as said Resolution No. 466, of December 12, 2012 the Ministry of Health.
