PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1) Revise the Result section of the Abstract to remove 426 2) The inclusion of data from the participants who had not completed their registration with the NHIS is a serious contamination of the study data; this is more so when these were not separated and their influence on overall satisfaction level was not explored 3) In-text comments on tables should be below the concerned tables 4) In-text citations should contain only the serial number. 5) References 3, 13, and 16 need further revision to conform with the Vancouver style 6) The manuscript needs general English grammar revision	Thank you for your comments about this manuscript. 1) 426 has been removed from the Result section of the Abstract. 2) Authors appreciate the contribution of the reviewer for pointing out the flaw of the study for including participants who had not completed their registration with NHIS. This has however improved the knowledge of the authors to help future studies. 3) In-text comments on tables have been put below the concerned tables. 4) Serial number has been used for in-text citations. 5) References 3, 13 and 16 have been revised to conform to the Vancouver style. 6) The entire manuscript has been subjected to general English grammar revision. Thank you for your efforts in this manuscript.
