SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This study is important as it highlights how essential is efficient maternal care during the first stage of labor, in achieving safe and successful labor and delivery outcome. This is a very good paper, except for the following items that must be looked into by the author: 1. In using abbreviations, kindly make sure that their full words are previously stated (BP, PR, FHR, VE). 2. Research questions may be removed as they duplicate the objectives of the study. 3. Objectives 1-4 may be lumped into one objective as presented in the results. It can be stated as "To determine the monitoring and documentation of domains of intrapartum care (hourly BP, hourly PR, half-hourly FHR and Four-hourly VE). 4. The identification of the socio-demographic characteristics of the participants may be added in the objectives of the study. It may be the number one objective as it is presented first in the results. 5. Describe briefly the research design (line 108) so that the readers do not need to look for the meaning and explanation.	Authors hereby appreciate your comments on this manuscript, same have been addressed as follows: 1. Full words of abbreviations (BP, PR, FHR, VE) in the manuscript are now stated before their use. 2,3 & 4. Research questions and objectives have been streamlined and discussed as part of introduction. This is the convention. 5. Description of research design has been expressed explicitly
<u>Optional/General</u> I comments
