SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Ethical Issues: Yes, the authors should mention that the study was accepted by the local Committee on Bioethics and Research and that all patients signed the letter of informed consent.	I agreed and included in the manuscript
<u>Minor</u> REVISION comments	1. The authors should mention that the study was accepted by the local Committee on Bioethics and Research and that all patients signed the letter of informed consent. 2. The authors should mention that the study has limitations such as: the diagnostic test is not sensitive, has to be confirmed with other tests and / or combined with other tests. It also does not distinguish between IgG and IgM. 3. If possible, update references.	I agreed and included in the manuscript
<u>Optional/General</u> comments	In general, this study is interesting and useful.
