

**SDI FINAL EVALUATION FORM 1.1****PART 1:**

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_34541
Title of the Manuscript:	c
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Abstract, Introduction and Methodology: Authors should consider manuscript. Results: Since all subjects are patients with AAD, it is advisable for authors to show frequency of subjects according to their age groups such as 0-10, 11-20, 21-30, 31-40, 41-50 e.t.c. Authors should consider manuscript for details. Discussion: Authors need to use connective words to reduce repetition of words such as 'in the present study'. Authors should consider manuscript for details.	Required changes done as per the reviewer's comment in Abstract , Introduction and Methodology Results – Have included Table 1 which shows Age wise distribution of the patients included in the study. Have edited the table for Clostridium difficile. Table 5 - Patients demonstrating <i>C.difficile</i> in stool by Culture / PCR / Toxin. Total 13 cases of <i>C.difficile</i> antibiotic associated diarrhea. Discussion – Required changes done. Reference value added. Author's name included. Repetition of words reduced .
