SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	• The article is relevant because the epidemic of Ebola Virus Disease has reached a large number of individuals, as well as health professionals. I recommend the publication of the article, from the insertion of the themes mentioned below: • There is a need to explore in the article the topic of Public Health Emergencies of International Concern (PHEIC), as well as to cite and understand the application of the International Health Regulations (WHO) and the Universal Declaration of Human Rights (UN) in the context of epidemics. • Explore the number of cases and deaths of EVD among health professionals and children during the last epidemic, based on WHO data. • Further explore the key role that non-governmental humanitarian organizations have played during epidemics. • Explore whether WHO responded adequately to the epidemics of disease caused by the ebola virus.	Key role that non-governmental and humanitarian organizations have played during West Africa Ebola epidemics were highlighted.
<u>Optional/General</u> comments
