PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Comment #1: the sample size is likely too small. Where did the estimates of 60% and 20% used in the sample size calculation (2.6.1) come from? Please provide reference	Line 117 (personal communication from Celaya radiologists) There is no evidence of the actual prevalence of exposure to ionizing radiation and oxidative stress in diagnostic radiology personnel nor in the state of Guanajuato, much less in the city of Celaya, so direct communication with personnel was used who work and employment probability regarding expected.
Minor REVISION comments		
Optional/General comments
