SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1.Abstract: • In results mention total number of patients seen • Review for rephrasing of grammatical and typographical mistakes • Zliten has been repeated numerous times 2.Conclusion: • Should be given as a clear statement • Recommendation for future strategy should be followed as separate paragraph 3.References: • All the references should be on a standard format • Latest references should be used only 1 reference from 2017	Our study represents and explains epidemiological features in one city, which is Zliten, in very wide geographical area, North West of Libya, so we would change the title of our manuscript into Cutaneous Leishmaniasis in Zliten, a new focus in North West of Libya. 1. Abstract was reformed and rewritten according to your valuable notes and advices. 2- Conclusion was also rewritten to be more clear and recommendations are now in separate paragraph. 3- References were revised and new references were used and all references are now in one standard format.
Minor REVISION comments	Author must declare conflict of interest and possible funding source	Conflicts of interest and funding is now declared by authors.
Optional/General comments	It's a popular case series and can be accepted for publication after corrections	We hope that our corrections are satisfactory and have made our Manuscript interesting and informative.
