PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In abstract: results:? Are they newly diagnosed patients or they have already diagnosed as HIV + and get tretaments? Please correct figure 1.	In the abstract, results have been indicated. The word conclusion has been deleted as it was not meant to be there. The actual sub-heading of conclusion has been put and a conclusion given in the rightful place. All changes have been highlighted. Thank you. They were already diagnosed. This has been included in the methods section to make it clear. As they were already diagnosed, a portion of these were on ART, others were on pre-ART.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
