SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Introduction: It is very brief. Needs to be re-written, indicating frequency of thyroid pathology reported internationally and nationally. Rationale of study needs to be clearly written. 2. Material & methods: 101 cases were selected within a stipulated time. Among them only 16 were males. The ratio of males: females was 1:5 approx. Due to very unequal size of 2 groups, the conclusion regarding incidence of thyroid pathology cannot be drawn based on gender. 3. Results: needs to be re-written excluding the inference drawn based on gender. 4. Tables: Table 3 needs to be deleted. Table 4 is not required.	
<u>Minor</u> REVISION comments	Grammatical mistakes have been marked in the manuscript.	
<u>Optional/General</u> comments
