SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Line 10 and 15 – References 3, 6 to be looked into Line 16 – It is a diagnostic test, not a screening test Line 27 – Is it the cases or samples Line 30 – How many districts are there in TN and how many are affected (quantify) Line 29 – How many OBs? Line 42 – what about the density of Aedes mosquitoes? Number of samples are mentioned but it is not clear whether all cases were tested or only acute cases. If only acute cases, then it will be better to provide data for August, September, January 203, 2012, 2011	
<u>Minor</u> REVISION comments	Line 31, 32 and 33 – are repeated	
<u>Optional/General</u> comments	It is nice to know about the Dengue serotypes circulating in TN but just want to say that the circulating serotypes in India are documented.
