FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Author(s) failed to respond adequately to the comments *General: Many language & grammatical errors Addition should be in different colour to facilitate re-revision Most of the reply in the evaluation form are not presented in the text *Abstract: What is the p value of the response rate? Use % instead of absolute numbers *Introduction: Merge introduction with review of literature *Methods: Write sample size calculation then the sampling method Why convenient sample? Nothing was mentioned about perception score What about the content validity of satisfaction & perception score? *Results: Many figures than be merged within tables (e.g. merge fig 1 with table 1) or presented as statement (e.g. fig 2) or in new tables (other figures) Table 2: why this selective comparison? *Discussion: Still defective Why financial constraints, it is just printing and distributing the questionnaire, delete this statement. Too long conclusion What is the practical implication of the results?
