SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Conclusion is too long, please try and shorten it. Line 48: P.f is one of the six Plasmodium species infecting Man Line50: Please cite recent reference. Line 62: Occurring in Africa region, please remove the WHO Line 80: please cite recent reference. Line 113: who sleeps inside the net and not under. Is there any difference between ITNs and LLINs? If yes then I think LLINs is appropriate to use. Line 192: Why was thin film not made? What of if you had other species apart from P.f?	
Minor REVISION comments		
Optional/General comments	The study was a good one but all the issues mentioned above should be addressed.
