

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_31479
Title of the Manuscript:	Effect of a cognitive-behavioral program on adherence to the antihypertensive therapeutic regimen in older adults: a quasi-experimental study
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors wrote: "We did not measure any cognitive variables, only sociodemographic,..". However, a huge confusion is occurring, since the title says: "Effect of a cognitive-behavioral program..." Categorical variables are also possible to be presented in graphs or with pictures. Time worths it to dedicate for improving Science only when work is well done and truth is aimed to be clearly and nicely explained, because many people trust in Science for their own lives. That time and work well done has to be rewarded.
