SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1) <i>Schistosoma haematobium</i> should be scientifically written well such that after the initial mentioning it should be written as <i>S. haematobium</i>. 2) It should be indicated in abstract that filtration method was used. 3) Light infection should be ≤ 50 and not < 50 4) The tables should be redesigned without lines e.g variables, number infected (%) e.t.c Ethical issue: ethical consideration for urine collection was not stated in methodology	
Minor REVISION comments	1-Check spelling e.g estimating 2-include this reference here: Schistosomiasis is a disease of the poor in the developing world where access to safe drinking water and sanitation is poor Awosolu, 2016.	
Optional/General comments	The research seems original, however appropriate technical method of writing should be followed after reviewing many articles on schistosomiasis.
