Line 38 could be expressed this way, According to a study in Kogi state, Nigeria Line 54, remove see for example. The reference suffices. Indicate the sample size, n on the frequency column in table 1. Line 82, Two LGAs were randomly selected. This should be corrected. Two LGAs were selected using a simple random sampling technique of balloting. Endeavour to give an indication of the sampling frame when using a probability sampling technique Line 90 should be analyse	

SDI FINAL EVALUATION FORM 1.1

The column on Mean/mode is confusing as one does not know which one is applicable at a point in time. Also there is a standard way to indicate Mean $\pm$ SD (result being in same units) Please apply that.

Line 216, after source, please indicate the conversion rate of the Naira to the Dollar as at the time of the study for the benefit of International readers.

Present the Conclusion in prose (Line 273), also enrich the conclusion in the Abstract.

Was there an Ethical approval for this study? Please indicate.
