SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In line 53-60: you talked about MRSA-related infections, you have contradicted yourself. You were talking about CRSA and not MRSA, please check these. In line 68-73. The description is too much so you can remove. In line 89-91 why was mannitol salt agar not used from the beginning rather than using NA and Blood Agar since NA is a differential agar. In line 96: check the new name for the diffusion technique used either NCCL or CLSI. In line 103: NCCL and CLSI are the same body check the most recent.	
<u>Minor</u> REVISION comments	In line 167: rephrase the sentences In line 195: please do justify the sentences.	
<u>Optional/General</u> comments
