PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	References need to be corrected to match style of journal. Namely the references are cited in text in brackets [] and not superscript. Also the volume number and issue are not in BOLD. Make sure where possible that pages are listed for references. Reference to a journal: <u>For Published paper:</u> 1. Hilly M, Adams ML, Nelson SC. A study of digit fusion in the mouse embryo. Clin Exp Allergy. 2002;32(4):489-98. There are some issues of following the STYLE of the journal. The author must correct the text of the manuscript to match the style of the journal. This is in particular to the REFERENCES. The manuscript presents useful information and interesting study of the "natural" products efficiency of inhibiting a rather dangerous fungal infection.	
Minor REVISION comments		
Optional/General comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
