**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	In the discussion, the authors need to compare their results with similar studies in Africa for surveillance of some diseases???	
<b>Optional/General</b> comments	<p>The impact of the surveillance for global population is not shown. The correlation of mass campaign vaccination and surveillance of monkeypox disease muss be clarified in RDC.</p> <p>The study is very important, the collected data can be useful in the country, but few limitations and their responses need to conclude as perspectives.</p>
