SDI Review Form 1.6

PART 1: Editor's Comments

	Editor's Comments	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors did not correct some writings which were advised by the reviewers before. These uncorrected writings which I also think that they should be corrected, are below. Reviewer 1 - Line 16...prevent→prevention - Line 57... Remove the word e.g. and use the following reference format: [11, 12, 4]. - Line 103... Put all reference numbers after the quoted information and not before. Avoid using statements like according to [16]! - Line 195-Do not write what your truth is. The statement on line 194 is sufficient. - Line 195-211: The information contained here is irrelevant for the paper and should be removed. - Line 241-"This points to how they integration is being done". I suggest you replace "they" with "the". Reviewer2 - Line 77...school talk shows on sex abuse – rather use sexual abuse - Line 92...More explanation is needed on why you picked one science tutor and one tutor in charge of counseling - Line 137...conduct→'conducted' I also advise to make the corrections mentioned below. - Line 22...primacy→primary - Line 25...immuno→immunodeficiency - Line 37...Universities→universities - Line 57...omit 'e.g.' - Line 68...you do not need to write the president's name - Line 120... '..HIV/AIDS. While (27.8%)..'→ '..HIV/AIDS, while 27.8%.. - Line 172...'[16] reported..'→'It is reported that...' put the literature number at the end of sentence. - Line 187... 'called seroconversion'→ called as seroconversion - Line 196... '..Virus" Human because..'→ '..Virus" , because..' - Line 250...'[29] also noted..'→'It is also noted..' put the literature number at the end of sentence.	
Minor REVISION comments		
Optional/General comments	The authors must make the corrections. It should be accepted once the corrections is made.
