SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	COMMENTS 1. Abstract: There are two abbreviations: DCS and HHS (unexplained). Use here full spelling. 2. Some of citations are before dot, some after ([1-3] or [1-3]. – follow the journal style.) 3. In Methods: All these ED visits were diagnosed? 4. Line 154. Explain 52.2+/-8.4 (what it is 8.4 sd, se,...?) 5. I agree with limitations in lines 316-322. 6. It's interesting split by day/night and season. Thank you	RESPONSES 1. Correction effected. All abbreviations removed from the abstract section. 2. All doting corrected as recommended by the journal 3. Yes. All the ED visits were diagnosed. The inclusion criteria involved the availability of required data. Incomplete diagnoses invariably were excluded 4. 52.2±8.4 is the 2 standard deviation at 95% confidence limit; alpha of 0.05 and 1.96x SEM. It is known that in normally distributed data 95% of sample mean lie within 1.96 standard deviation left and right of the population mean 5. Thank you for agreeing with limitations 316-322. 6. Thank you for appreciating the epidemiology into time of the day and seasonality.
<u>Optional/General</u> comments
