

Editors' Comment

The compulsory revision are listed below:

1. Fig 1 is data from Ref. 20, should not include in the text, may include as a supplement of this manuscript.
2. Page 2, "**Aims:** The aim of this study was to determine the *Plasmodium falciparum* malaria Clinical and parasitological..." Clinical should be "clinical" (low case).
3. Page 10, Line 8, "Consequently five (5µl) of the.....", please indicate five microliter.
4. Page 15, Line 1, "All participants were malaria positive for *Plasmodium falciparum* during the time of enrolment..." enrolment should be "enrollment".
5. Page 15, last paragraph should change to "There was ACPR among 53 (27.3%) participants, LPF among 43 (22.2%) participants, LCF among 23 (11.9%) participants and ETF among 75 (38.7%) participants (figure 4)."
6. Table 3, Table 5, Fig 5 delete the "showing" in legends.
7. Page 22, Fig 5 should be "Fig. 6".

Authors' Feedback

Thanks for the compulsory revision suggested by the editors. Following are my feedback

1. We have done revision no 2, 3, 4, 5, 6 and 7 according to the comments suggested. The revisions are indicated with red color inside the write up.
2. For revision no 1, we hereby request that fig no 1 just remains the way it is. Fig no 1 tries to explain more on the study area which appears before the figure.

Thanks in advance
