

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_39872
Title of the Manuscript:	Epidemiology of Wheezes and Diagnosed Asthma among Schoolchildren Aged 12-17 Years in three States of Sudan 2016
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. % prevalence should be given in abstract. 2. Line 177: conclusion should be given rather summary at the end of discussion prior to limitation 3. Reference 1,3,4,7 and 14 should be completed and put in a standard format 4. There is no need to mention month of publication in reference citation	% prevalence should be given in abstract.(DONE) Line 177: conclusion should be given rather summary at the end of discussion prior to limitation(DONE and the discussion re-written) Reference 1,3,4,7 and 14 should be completed and put in a standard format(all references were revised) There is no need to mention month of publication in reference citation(DONE)
Minor REVISION comments	1. In abstract the objective should be moved before background 2. Line 14-15 Rephrase avoid repetition i.e. 1598 school children of 7th and 8th grades were enrolled in the study 3. Line 18-19 use the same tense i.e. had past experience 4. Line 72-Rephrase 5. Line 110-Table 1 Parents occupation and education level were not the study points. It seems irrelevant	In abstract the objective should be moved before background(The sequence is OK) Line 14-15 Rephrase avoid repetition i.e. 1598 school children of 7th and 8th grades were enrolled in the study(DONE) Line 18-19 use the same tense i.e. had past experience... ..(DONE) Line 72-Rephrase(DONE) Line 110-Table 1 Parents occupation and education level were not the study points. It seems irrelevant.(although it is not relevant but it gives the profiles of the child family that could be useful for citation in future studied of socioeconomic characteristics of asthmatic children)
Optional/General comments	It's a popular work and a scientific contribution in that part of the world	Thanks

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
