General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	L Method of analysis was not clearly explained. Statistical analysis should be done using SPSS or STATA, not Ms-Word. 2. Objective of the study was to access the usage of ITN among PLWHA, the findings will be more meaningful if the author analyse the relationships between multiple variables such as gender, age distribution, and other variables. 3. What are the efforts of health educator?. 4. In line 67, "have been nationwide free donations of ITN". Need to further clarify the meaning of nationwide and who donate the ITN? 5. Author should discuss the trend of ITN usage with incidence of malaria among HIV/AIDS patients in Nigeria to have an overall impact of ITN on malaria reduction among HIV/AIDS patients.	Correction already highlighted in the manuscript
Minor REVISION comments	1. Need to send for proofreading	
Optional/General comments
