PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	I think the manuscript is the result of a valuable pieces of scientific research. However, the paper should be improved for the written English that ought to be corrected prior to publication. Please add company and country names of all used materials, culture media, antibiotics and so.	We have looked into the written English and improve it as much as we could. The company and country names of materials used have been included in the write up.
<u>Minor</u> REVISION comments	References should be checked out for journal text rules. Several references should be added newest one (2015-2018).	We have added or replaced some relevant reference and complied with the journal guidelines.
<u>Optional/General</u> comments	I believe that this study lays the foundation for future studies.
