General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Review the abstract, correct grammatical errors and re-write conclusion.	Thank you for the suggestions which have been effected in the reviewed manuscript.
Minor REVISION comments		The review was very relevant in most cases. Thanks
Optional/General comments		Thanks for your useful contributions and suggestions, however, in Table 1, your suggestion of including our Control group as infected was contrary to the design of this research and so it was not implemented. Thanks.
