PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Referencing style is not uniform. Some journal are written in full while some are abbreviated. Page numbering is also not uniform eg some 739-747, 1075-85, 965-68, 1269-1278	Style was uniformed and abbreviated journals were written in full and highlighted. Page numbering was uniformed and highlighted.
Minor REVISION comments	More references are required to make the discussion more robust. Studies within Africa and other continents should be searched and compare and contrast results from present study.	More references from African countries and other countries were added to the discussion section. Comparisons were done. Quoted materials and the references in the list of references were highlighted.
Optional/General comments	Typographical errors have been highlighted in manuscript for corrections. Study is good and has brought new knowledge about wheeze and asthma in Sudan.	Typological errors were corrected and highlighted
