General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	ABSTRACT - Introduction + objective sum up to background INTRODUCTION - Good! But authors should precisely state the aim; long-term goals are not necessary MATERIALS & METHODS - Excellent! But what was the calculated sample size? As well, readers would be interested in the mathematical demonstrations that yielded the sample size. RESULTS - Tables 1 & 2: to harmonize the decimal points. - Tables 6, 7, & 8(AOR (95% CI)): to harmonize the decimal points.	Summed up to back ground As per the comment given, we have stated only the aim the study. Previously stated long term goals are removed Comments are incorporated in the manuscript Thanks. Harmonized
Minor REVISION comments	Authors demonstrate a good mastery of language; but, I would request a thorough check for few grammatical errors.	He have tried to check for grammatical errors

SDI Review Form 1.6
