

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_36283
Title of the Manuscript:	Efinaconazole 10% topical solution: treatment of mild to moderate toenail onychomycosis in Japanese subjects
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Table 1 and table 2 should also have columns for the entire population since the discussion spends a lot of time discussing Japanese vs. non-Japanese patients. Please comment further about the high prevalence of tinea pedis among Japanese patients and why more Japanese patients had tinea pedis treated concurrently with the nail.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
