**PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                              | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | The "Study Area" must be described in details including its localisation, environmental characteristics, latitude, altitude, climate, sanitation and anthropogenic changes. Based on such description the author could discuss his/her results. |                                                                                                                                                                               |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                                 |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    | It is a good article whom results could be useful for the decision makers to fight efficiently against schistosomiasis.                                                                                                                         |                                                                                                                                                                               |
