

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_39959
Title of the Manuscript:	The use of Paper Based Obstetrics Wheel and Electronic Applications for Calculation of Estimated Date of Confinement and Gestational Age, which is more Accurate?
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is aimed to compare the accuracy and consistency of the mechanical or paper based obstetrics wheel to that of electronics applications in calculating expected date of confinement and gestational age. The title is "The use of Paper Based Obstetrics Wheel and Electronic Applications for Calculation of Estimated Date of Confinement and Gestational Age, which is more Accurate?, depth of anesthesia and postoperative recovery in patients undergoing abdominal surgery". 1. A sample size of the study is relatively small. 2. Several factors influence the outcome of the study. Please discuss these issues. 3. What is the standard method for calculating expected date of confinement and gestational age? Please discuss this method and also compare it with the other techniques. 4. The introduction part is too long. Please summarize it. 5. Please review the literature and add more details. 6. Please add the limitations of the study in the discussion section. 7. What are the new knowledges from this review? 8. Please also recommend the readers "How to apply this knowledge for routine clinical practice?".	
Minor REVISION comments		
Optional/General comments
