PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Abstract 1.- It was not calculate. (Add in paper) Methodology: 2- The focus was Spanish and English because articles in the databases were in English and Spanish. The articles in anothers languages were excluded because they were not the specific criteria in key words. (Add in paper) 3.- The search began October 2016 until February 2017. (Add in paper) 4.- Levels of quality were the reported in Primo J. Niveles de evidencia y grados de recomendación (I/II). Enfermedad Inflamatoria Intestinal al día 2003; 7(2) 40-42. Avaliable in: http://www.svpd.org/mbe/niveles-grados.pdf (Add in paper and add the reference in the list) 5.-Key words in title and abstract. (Add in paper) 7- Yes, the duplicated papers were removed. (Add in paper) 9.- Because are databases of high quality. (No good justifications. You may chose them based on the previous similar systematic review studies. Please add in the paper) 10. The first review was for PI and then corroborated by co-authors (Add in paper) 11.- 1 Intervention, 2.- alcohol, 3.- elderly, 4.-systematic review(Add in paper) 12.- The definition was used from WHO and Mexican Official Norm NOM-031-SSA3-2012. (Define and add the reference in paper) 15.- The data was not analyzed by biostatistics methods. (What is biostatistics method? Do you mean by descriptive analysis? Add in paper) Discussion. It was write together with results (there is in the template of the journal) (Even if there is no template of the journal you know definitely in the discussion your need to use references showing you are discussing the results of this study. I cant see any reference)
