

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_43041
Title of the Manuscript:	Clinical Interpretation and Diagnostic Relevance of Hepatitis B Serological Profile Testing
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Line 66: What is the role HBeAg in addition to HBsAg and IgM Anti-HBc in acute infection? Line 73: What is the role of IgG anti-HBc and IgG Anti-HBs in chronic hepatitis B infection? Line 181-182: During window period or after the window period? IgG Anti-HBc may be the only antibody found during hepatitis B window period.	
Minor REVISION comments	Line 44: Remove comma, let the sentence flow Line 91: HBV and genome should be spaced Line 127: OBI is of clinical or clinic relevance?	
Optional/General comments	Since the topic is on serology, methinks lines 66-71, 74-79, 81-115 can be abridged serologically
