

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_43041
Title of the Manuscript:	Clinical Interpretation and Diagnostic Relevance of Hepatitis B Serological Profile Testing
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is scientifically robust and technically sound. Address the following grey areas: 1. Introduce hepatitis B virus before using it as HBV subsequently. 2. Line 20- Use only the abbreviated HBV. 3. Keywords: Expunge irrelevant keywords and use only relevant ones.	
Minor REVISION comments	I think "Diagnosis" should come before "Clinical interpretation of results". Therefore, I suggest recasting the topic as "Diagnostic relevance and Clinical interpretation of Hepatitis B virus serological profile testing". Check gross grammatical and typographical errors. References should be arranged following Journal format.	
Optional/General comments	The authors did a good job. Keep it up.
