Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are some general statements that are not scientific that need to be corrected.	
Minor REVISION comments	The discussion can be made better as the author(s) discussed in isolation by not connecting the existing information with their own results. The references are old. More recent ones need to be used.	
Optional/General comments	You can consider breaking Table 1 to two for better understanding and interpretation
