General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	What do you think of making a brief description about the other types of blood in your introduction? Your abstract has 259 words, I do not know if this is a problem for the journal. In the text the citations must be indicated by numerical reference, in brackets. Example: [12]. However, theirs are not enclosed in brackets. Arrange all your references according to the norms of the magazine. See the link: http://www.sciencedomain.org/page/general-guideline-for-authors or https://drive.google.com/file/d/0BzvKYtXLTJZjMzYwcTJwZ2g5ZFE/view	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The content of the article is very relevant for health professionals, especially those who work in clinical practice	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
